Finding a good database

1. Go to http://web.nccu.edu/shepardlibrary/

2. If you are using an on-campus computer, click on “Articles/Databases.” If you are using an off-campus computer, click on “Off-Campus Access.”

3. Either link will take you to the complete list of databases to which we have access. Because there are so many to choose from, you will want to use a trick to find the database that best suits your needs. Press the “Ctrl” key and the “F” key at the same time. This will open a small box in the corner of the screen that will search for anything you type into it. Type “social work” into the box and then press these arrows to navigate through the databases until you see one that you like.
